PROFILE

Hello World! I am a professional **software engineer** and **team lead** with extensive experience throughout the full software stack. My career focus has been centered around **user experience** and **full-stack product design**. I hope to find a company that offers a challenging work environment and promotes creative problem solving.

EXPERIENCE

PRIME Medical · System Architect · Team Lead · *Jan 2022 - Present*

- Led scrum team and guided management through full product development lifecycle
- Designed and led implementation of full stack software solution for medical clinic practice, including UI solutions (**Ionic, React, Redux, TypeScript**) for web, iOS and Android with server-side API layer (**Node JS, Express, Mongoose**) and data layer (**MongoDB**) running on AWS (**ECS, EB, RDS, Document DB, Textract, Bedrock AI**)

Meta · Senior Software Engineer III · *July 2020 - Jan 2022*

- Member of internal network infrastructure team responsible for redesign and implementation of new fiberoptic network management software
- Used Meta design specifications and Meta technologies (**React, Relay, Flow, SQL**) to design custom internal solutions, working with stakeholders for operations requirements

Red Hat · Sr. UI/UX Developer · Team Lead · *Feb 2017 - June 2020*

- Worked on Digital Marketing team implementing designs, webpages and applications to support RedHat.com by utilizing **web components** and crafting new **design systems**
- Led strategy, **user research**, and development for **accessibility & internationalization**
- Containerized and architected build processes for front-end codebases using **Docker**, GitLab Pipelines, and RedHat **OpenShift**

Vail Resorts · Front-End UI/UX Developer · *Jan 2013 - Feb 2017*

- Specialized as front-end developer for multiple product lines including web, Android, and iOS applications, working in web (**jQuery, React**) and natively in (**Obj-C, Java**) for mobile
- Acted as team lead for front-end developers, helping architect systems, on-board and manage contractors, and lead **Agile** practices

Various Start-Ups · Designer · Developer · System Architect · *June 2010 - Present*

- Worked in various contract or cofounder roles with multiple start-up companies. See portfolio for a selection of works.
